

# National Professional Qualification for Executive Leadership (NPQEL) Professional Coaching Programmes

## Continuing to invest in the very highest standards of coaching for leaders, teams and whole school settings

MRA continues to support NPQEL leaders as they progress through this highly regarded National Professional Qualification with outstanding feedback for the Coaching interventions.....

*"The best part of the NPQEL programme! High impact- coming out of the day-to-day pressures of leadership to have some time for professional coaching has been great, and really powerful in building personal & professional confidence/leadership. Thank you." (2020)*

*"High impact! I am my own worst critic - so to have an impartial professional conversation about my leadership was very helpful." (2020)*

*"I think it was exceptionally valuable, as during the sessions I was able to talk through future career steps and how I can use theory from the course in practise." (2020)*

## Continuing the journey towards excellence in coaching within education

At MRA we support education professionals and leaders, academies, schools, and Teaching Schools with a wide range of Professional Coaching programmes to build both leadership and coaching capability, as well as cultures that promote resilience and wellbeing. Having worked across 50 schools over the past 9 years our evidence base is high! Please click on the links below for more information.
